

Don't ask one AI. Ask the whole roundtable.

A rollout map for proving whether Generative Debate can become a product people understand, share, and return to.

Health first

Food

Tech

Sport

Finance

THE IDEA

One question becomes a multi-agent debate.

People do not just need one fast answer. For important questions, they need a multi-level response: different expert agents with specific perspectives looking at the same question.

One agent may focus on risk. Another on daily habits. Another on emotional context. Another on practical next steps. When those perspectives debate each other, the answer becomes more robust, more entertaining, and easier to trust than a single chatbot reply.

TOPIC SLATE

Health leads. The others compete for second.

Health is the strongest first topic.

TVBS / 健康2.0 is a real partner channel, and health questions naturally need multiple expert perspectives: family care, nutrition, sleep, rehab, and medical caution.

FOOD

Cuisine taste debates, restaurant choice, nutrition angles.

TECH

Tool comparisons, build decisions, operator debates.

SPORT

Tennis expert, coach, injury doctor, stats analyst.

FINANCE

Saving, spending, investing education. Not financial advice.

ROLLOUT TIMELINE

The launch plan now runs from validation to retention.

PRE-LAUNCH

5/25 — 6/3

Core Engine & UX Validation

Audience: Closed group of tech-forward early adopters.

Channels: Global technology: TBC · Global arts: TBC · Taiwan: TVBS 健康2.0.

Owners: Technology: Travis · Arts: TBC · Taiwan: TVBS 健康2.0, Chris, 竹林.

PRIMARY KPI < 5s agent response latency.

PRE-LAUNCH
5/25 — 6/3

Collateral & Copywriting Setup

Audience: Broad developer and tech community.

Channels: Landing pages for Overall, Health, Tech, and Arts · Feature demo videos · TOC · Misc.

Owners: Tim · Travis · Victoria / Scottie.

PRIMARY KPIS Sign-off on value pillars · Demo video completed · PPNS.

WAITLIST OPEN
6/4 — 6/5

Interactive Landing Page Go-Live

Audience: Global pilot launch in TBC; Taiwan pilot launch in 健康2.0.

Channels: Hacker News · Twitter / X · Tech newsletters.

Owner: Growth / Web Ops.

PRIMARY KPI Session completion rate (%).

LAUNCH DAY
9-JUN
DAY 0

General Availability (GA)

Audience: Global tech ecosystem and engineering organizations.

Channels: Product Hunt · Tech Press · BusinessWire.

Owners: Global PR: Jeff · Taiwan PR: Doris?

PRIMARY KPI Session completion rate (%).

Activation & Viral Loop Scaling

Audience: Newly registered workspaces and teams.

Channels: Automated in-app onboarding guides · Referral emails.

Owner: Growth / Product.

PRIMARY KPIS Activation Rate · Daily Active Users (DAU) · Avg session time per user.

Cohort Analysis & Optimization

Audience: Active teams and organizations.

Channels: In-app feedback tools · Regular account reviews.

Owner: Customer Success / Analytics.

PRIMARY KPIS D30 retention rate (%) · New topics per day · Conversion rate from Free to Pro tier · Podcast setup?

The product “hits” only if people move through the whole loop.

Understand, use, share, bring someone else in, and come back.

01

People see the hook

“Don’t ask one AI. Ask the whole roundtable.”

VIEW → START

Percent of visitors who begin a Roundtable after hitting the page.

02

They start a Roundtable

Choose topic and expert setup.

START RATE

Percent of visitors who configure and launch a session.

03

They reach a useful result

Expert debate, recap, next step.

FIRST USEFUL ROUNDTABLE

Percent who reach a recap or next step. Time in session is tracked here.

04

They share it

Same topic and expert setup, in one link.

SHARE RATE

Percent of activated users who share a link or recap.

05

Someone opens and starts

A new session begins from the shared link.

SHARED-LINK CONVERSION

Percent of receivers who start their own session.

06

They come back

Repeat use without being pushed.

↪ RETURNS TO 01 — THE LOOP CLOSES HERE.

REPEAT USE

Percent who return at seven and thirty days.
